

PUBP309: EDUCATION POLICY

**Compulsory Education Debates in Colonial
India 1792-1920
(PARIMALA RAO)**

Shivakumar Jolad
FLAME University

BRITISH 60% , 565 PRINCELY STATES 40%

A PRE- HISTORY OF COMPULSORY EDUCATION DEBATES WHY INTRODUCE MODERN EDUCATION FOR ALL?

1. 1792 Charles Grant

- A. Famine, B. Superstitious Practices
- C. Social reform- abolition of sati – child rights

2. 1820s debates – Empower Indians / strengthen

- A. Rural population against feudal oppression
- B. To give voice to Indians in the administration
- C. To prepare them for future independence

3. National Education 1838-1850

Adopting indigenous schools, expansion of primary education

1. CHARLES GRANT 1792

Grant (1746) son of Scot highland soldier in the Jacobite army, revolted against 'English rule'/ orphan/ India in 1767/ cadet

Famine of 1768-70, 3 million deaths - 'sold their children; especially daughters in times of distresses. ... the sight of infants hovering over their dead parents, and the death of entire population of villages.' large network of schools

Observations - 1792, located 'the death and devastation to the out-dated method of cultivation' -

'We have appropriated those territories in perpetuity to ourselves, we have assumed sovereign dominion over them. (So) all duties of rulers must be incumbent upon us. ... (these duties are to protect people from) feudal oppression and official abuses'

1. Modern education would introduce 'new and improved methods of agriculture, protect the peasants from recurring famines' Indians are very receptive to new technologies

2. Prevention of Sati- 'the Hindus err because they are ignorant'

English officials – 'we have promised perfect religious neutrality to the Hindus ... will not interfere in the internal affairs of the Hindoo society.'

Grant returned to Britain, became one of the 24 directors of the EIC/ MP

Submitted 'Observations' to British Parliament in 1812

2. EDUCATION AS EMPOWERING TOOL : THE 1820S DEBATE 'ON THE EMPLOYMENT OF NATIVES IN THE PUBLIC SERVICE,' - 31 DEC 1824.

Thomas Munro - 'India has no political freedom, no voice in framing laws or imposing taxes.'

'Exclusion of natives from higher positions is both politically and morally wrong. ... They are altogether more efficient men of business.'

300 primary - Tahsildari, 40 secondary - Collectorate Schools

Death in 1827 - 80 primary/20 secondary

Purusavakam -10 Christian, 21 Shudra; Pettah Telugu - 13 Brahmin, 12 Shudra, 6 Modali, 4 Maratha, and 3 Komati; Ramnad Collectorate 30 Brahmin, 50 non-Brahmin children

Tamil, Telugu, Kannada, Malayalam + English, Mathematics, elementary science. All schools closed in 1836

1839 MADRAS PETITION FOR REOPENING MUNRO'S SCHOOLS - 70,000 SIGNATURES

SCOTTISH MPS 1830-33, T.B. MACAULAY, CHARLES, ROBERT GRANT, JOSEPH HUME

Demanded elected Indian MPs in British Parliament

Renewal of Charter 1833 'no person, by reason of his birth, creed, or colour, should be disqualified from holding any office in the service of the East India Company.'

M- 'Judicial reforms in India to prevent the British officers from treating all the native population as *parias*.'

M- 'The day on which Britain gave its independence to India would be the proudest day in English history.'

Set up Anglo-Vernacular Schools Ajmer, Azamgarh, Bareilly, Dacca, Farukabad, Ghazipur, Gorakhpur, Jaunpur, Jabalpur, and raised the standard of existing local schools at Bhagalpur, Meerut and Sagar. /Inclusive classrooms Dalit and Brahmin students

MACAULAY'S MINUTE - 3 JULY 1836

COMPULSORY TEACHING OF MOTHER TONGUE

‘I stress on the teaching of vernacular in our English schools...in fact, their knowing how to read and write their mother tongue will, very greatly facilitate their English studies. Indeed I conceive that an order to give instruction in the English language is, by necessary implication, an order to give instruction where that instruction is required in the vernacular language.’

‘Teaching the boys at Ajmer, to read and write the Hindi language seems to me to be a bona fide part of an English education.’

Macaulay – 3 years 7 months 7 days in India 10 June 1834 – 17 January 1838

Macaulay's Minute 7 March 1835-17 January 1838 = 2yrs

EMPOWERMENT AT THE LOCAL LEVEL

Krishnamohan Banerjee,

‘A ryot that can read and write may be able to sign his own name in his *koboolut* (written consent to rent agreement) after reading it himself, may examine the *pattah* (land deed) or the *dakhila* (receipt for money) granted to him and the entries made in the Zamindar’s books when he takes *izarah* (lease of land held at a defined rent) or pays rent, may when wronged write out an application to the proper authority without the intervention of a Court sharper in the form of a professional scribe, may read for himself depositions taken in his name and affix his own signature, and in various other ways check the delinquencies of oppressors, forgers, and perjurers.’

SCHOOLS IN EVERY VILLAGE

Judge of Jessore, W. Seton-Karr, suggested village schools

‘enable a peasant to write a letter of business, to draw out a bond, to understand the terms of a mortgage, to cast up his accounts to know if his receipts for rent are correctly signed.’

Gov / Bengal /John Peter Grant,

‘Curriculum in primary schools besides teaching reading, writing, and arithmetic should consist of ‘Agricultural and Commercial Accounts, Quittance of Rents, Bonds, modes of formal letters. ... The above course will enable any lad of ordinary intelligence to read and write correctly and to see that he is not cheated in his accounts by the Mahajan or the agent of the Zamindar.’

ROBERT SHORTREDE'S SCHOOLS PURANDHAR TALUKA 1843

‘People can understand their own affairs and vigilantly observe and scrutinize the conduct of the native functionaries n successfully resist all unauthorized actions by seeing that the sums paid by them to govt were properly entered in their Receipt BooksIt would be a powerful and operative check on the native functionaries.’

Mulberry cultivation

Castes	No of Students
Kunbi	408
Brahmin	338
Wani	87
OBC- Kasar, Navi, Teli, etc	168
Muslim	32
Dalit-Chambhar	11
Mahar	3+3 girls
Mang	1
Others	64

‘NATIONAL EDUCATION’ OF TREVELYAN 1838

‘The time has arrived for taking up the question of national education ... All we need to do is to bring people together, they will form into a nation’

National Education - English medium schools with compulsory vernacular and one classical language Sanskrit/Arabic/Persian

‘Just as Britain was benefitted by the study of Greek and Latin, India would be benefitted by the study of English’

Colonial State -Indians should be empowered through education but not enough to overthrow the Brit administration.

Ellenborough - **‘If these gentlemen (Macaulay, Trevelyan and others) who wish to educate the natives of India were to succeed to the utmost extent of their desire, we**

POLICY OF INCORPORATION- 1840-1882

Macaulay's Minute was replaced by Auckland's Education Minute
24 Nov 1839

All Macaulay's schools closed down/ Bareilly – saved by Nawab of Rampur + local people

Auckland - for setting up a 'National System of Education for the entire country based on the foundation of indigenous schools'

- Adopted 70,000 indigenous schools 1840-1881 - gave 1 month teacher training on how to maintain attendance register, prepare quarterly and annual reports, use maps and globes to teach geography.

5 rupees a month as salary/ pension after completing 20 years of service

Hindi	Gujarati	Marathi
Akshar Dipika	Balmitra	Bal Mitra
Baran Mala	Kavita Sangraha	Niti Bodh Katha
Bal Bodh	Karanghelo	Vidur Niti
Ramayana of Tulsi Das	Narmadashankar's Nalakhyana	Dadob's Marathi Grammar
Bhasha Bhaskar	Dalpatram's Pingal (prosody)	Kekavali by Moropant
Ganit Prakash	Aatodaya	Govind Narayan's Books
Patra Malika	Narmagadya	Parashuram Pant's Book
Kissanapadesh	Dalpatram's Poems	Parashuram Shastri's Muktamala
Shiv Prasad's Hindi Primer	Mahipatram's Travels in England	Nana Shastri Apte's Book
Surajpur ki Kahani	Hope's Guzetati Reading Series	Vinayak K. Oke's Books
Dharm Singh ka Vrittant	Hope's Gujarati Grammar	Krishna Shastri's Anek Vidya
Geography, sanitation,	Cholera, advice to peasants, girl's education etc	Aesop's Fables /Marathi

Kannada	Telugu	Tamil
Katha Manjari	Niti Sangraham	Katha Manjari
Panchatantra	Sumato Sataka	Panchatantra
Nala Charitre	Nala Charitre	Minor Poets
Jaimini Bharata	Rukmini Kalyanam	Jnana Unerthutal
Rajashekara Vilasa	Adi Parvam	Nannari
Kavita Padhati	Pedda Bala Siksha	Balabodagam
Katha Mala	Vigneshwara Dandakam	Nitinerivillakam
Dasara Padagalu	Garudachalam	Tirukural
New Books – Geography, sanitation,	Advice to peasants, cholera,	support girl's education

REASONS FOR INCORPORATION

- 1. Indigenous schools gave very high quality of literacy and numeracy
- Boys joining high schools could master Algebra and geometry in one year
- 2. Cost effective- Macaulay had fixed the salaries of Indian teachers at 30 rupees, the government was unwilling to give this amount
- New Schools-cost of the building + maintenance + high salary
- History gave a sense of India's grand past
- Geography linked village-district-province-idea of India strengthened

INDIAN OPPOSITION

1839, Radhakanta Deb- 'Nothing should be guarded more carefully than the insensible introduction of education. Education would wean the youth from the plough, the axe, and the loom to render them ambitious only for the clerkship for which the host would besiege the government and mercantile offices, and the majority, being disappointed, would be unable to return to their trade and would necessarily turn vagabonds.'

Indigenous schools-govt schools- on to high schools n colleges – govt clerks n officials

Pre col - Feudal class – educated /master-servant, patron-client

Reversed in Colonial govt – educated had power over feudal class – Vidyasagar – girls education- widow marriage

Peasant revolts – 1860s Pabna – journalists of The Bengali newspaper, court clerks, British judges/VB Phadke 1870s

MASS EDUCATION DEBATE

1868-70

1870, England passed Compulsory Education Act

Colonial govt proposed to introduce 'Mass Education'

GG Mayo 'a sound system of primary education for the entire population' in India

'What a great blessing it would be to their country when the light of education shall have reached even the most obscure cottage of the peasantry.'

Discussion - 2% cess for rural roads n sanitation

1% Education Cess across India except Bengal

Many Bengal Zamindars 10,000-20,000 annual income /paid less than 100 rupees revenue

Education Cess – a burden / ready to pay for roads n sanitation

OPPONENTS OF MASS EDUCATION

Peary Mohan Mukerjee member of the Viceroy's Council argued-

'Even in England a copy of Shakespeare or Milton is not placed in the hands of all boys... In this country, however, the condition of no boy is deemed too low, or his natural parts too unpromising, but that he is expected some day to adorn the Bench of the High Court, or to assist the Viceroy in the deliberation of His Excellency's Council.'

The government should aim to make the masses as useful members of the society like 'servants, shepherds, apprentices and not scholars'

Syed Ameer Ali – Bhagalpur high school, out of 120 Muslim

HUNTER COMMISSION 1882

Liberals – D. Naoroji, KT. Telang, Surendranath Banerjea, Subramanya Iyer, - Mass Education,

1. 'Every child should get education, equal access to higher edu'

2. 'A school in every village with 200 people'

Feudal/Landed gentry opposed

1. Lower classes/lower castes/girls do not require education, they should not be admitted to schools

2. Regular curriculum does not suit lower castes and women

SA Khan, SA Ali, 'primary education needs no special encouragement. The *Muktabas* and the *Madrasas* attached to the mosques should be utilised for the purpose of imparting

OPPOSITION BY CONSERVATIVE INDIANS-1

Rajendralal Mitra argued, 'a fisherman's son who keeps himself all day in a school-room instead of wallowing in water, does not get the best training for the amphibious character of his family calling.'

Opposed the fee concessions to 10% poor children

'The imperative duty of government leaves no room for unequal charges for the same commodity. ... As trustee of the revenue contributed by the people, the government is bound to disburse the same. I cannot conceive how it can say, with any show of justice, that the son of a rich man shall pay double or treble the amount paid by a poor student in the same class. Wealth is no crime, and there should be no penalty or

OPPOSITION BY CONSERVATIVE INDIANS-2

Feudal elites compared 'The English educated Indians with the Russian nihilists.'

" they both have high intellectual education but no grounding in their respective religions. Just as mystic reverence for the Czar appear absurd to the young philosopher and the church itself is despised, the Indian counterpart has dispensed with reverence to religion and customs."

Just as the educated Russians have lost reverence for Tsar, / 'the educated mock at all distinctions of caste, wealth and lineage which had enthralled them for centuries.'

'Secular education taught in government schools has placed the destiny of the nation at stake.'

OPPOSITION BY CONSERVATIVE INDIANS-3

Bal Gangadhar Tilak – ‘giving education to women, non-Brahmins and poor Brahmins is a waste of public money’

Reformers/ ‘Public funded schools should be open to public’

Tilak – ‘Public money means tax payer’s money, only tax payers get to decide how it is spent’

Tilak – the lower classes should be trained as ‘carpenters, black smiths, masons and tailors.’

Separate curriculum – ‘preparing of soil, the tending of bullocks, the implements of husbandry’ for lower classes

No mathematics, sciences, and English for lower castes n girls

OTHER OPPOSITION AND SUPPORT

Girls – ‘Vernacular, moral science, needle work’ **‘the brain of a woman on an average weighs less by five ounces than that of a man’**

1916 – Karve’s Women’s Uni – Tilak ‘Vernacular, Puranas, Home Management Skills alone should be taught. Otherwise education is a curse for women’

1884-86 -Colonial govt handed over school education into the hands of elected Municipalities and District Boards / appointments /curriculum/textbooks

Increased the education budget/more schools, hostels, teacher training.

Out of 10 Municipalities in Maharashtra, 9 opposed comp edu

MAHARAJA OF BARODA'S EXPERIMENT

1893 - 10 villages of Amreli *taluka* /1901, whole taluka.

1906, primary education was made compulsory and free throughout the province for boys between the ages of six and twelve and girls between the ages of six and ten.

1880s -200 elementary private school - 800 boys.

1926 - 78 English institutions including a college, teaching 14,080 boys n 345 girls.

Vernacular institutions 2,916 including 219 for Dalits, 98 Urdu Boy's n 26 Urdu Girls schools

Total no of 2,17,138 children /67,384 are girls

The farmers of Baroda are no happier, no better than their brethren elsewhere. M.K. Gandhi, *Young India* 21 January 1926.

TOWARDS GOKHALE'S BILL

1902, Gokhale 'a widespread diffusion of elementary education.'

Reform Vs. Political Freedom/ Gokhale - 'Will a shoemaker be ever to rise no matter how gifted he might be?'

1904 onwards INC endorsed compulsory Edu in every session

INC - Jotindra Mohan Tagore wrote to 'the abolition of fee in all primary schools ... benefits the poorest classes of agriculturists, small traders and artisans.'

Justice Sarda Chandra Maitra to govt- 'free primary education must be compulsory; otherwise, the poor and the lower castes will not be benefitted.'

Gokhale - 1908 - 'the government to abolish fees in all primary schools'

GOKHALE'S EFFORTS

Gokhale – to govt, in 25 years (1882-1907) the number of schools had increased from 85,000 to 1,13,000

1882-1907 the edu budget increased from 36 to 93 lakhs.

1882-1907 the defence budget went up from 19 to 32 crores.

Gokhale - govt should earmark 4, cr a year for edu shared by both the state and the local bodies.

Gokhale proposed 'an eight *anna* tax on salt because I think it is a smaller evil that my countrymen should eat less salt than that their children grow up in ignorance.'

Officials supportive / Harcourt Butler, Secretary of Education - 8 cr a year

Murder of AMT Jackson by Lakshman Kanhere 1909/Nasik

1910 Secretary of State for India sanctioning 90 17 000 for edu

ELEMENTARY EDUCATION BILL-1

1910 Annual cost of running a primary school 224.33 rs

Highest in Bombay Presidency 402 rs, cheapest in Bengal 83 rs

Gokhale introduced the Elementary Education Bill in the Imperial Legislative Council on 28 February 1911.

Inspiration from the Elementary Education Acts of England of 1870 and 1876 and the Irish Education Act of 1902.

1. The Bill provided for the education of boys between the ages of 6-10 in the areas covered by the municipalities and District Boards.

2. These boards had to provide school building, appoint a teacher n School Attendance Committee, and prescribe by-laws.

ELEMENTARY EDUCATION BILL-2

3. These boards also had powers to exempt children from paying a fee if the income of the parents was less than 10 rupees.

4. It made the parents and the guardians responsible for sending the children to schools; otherwise, they were fined an amount prescribed by the Department of Public Instruction.

5. It also made the employers, agents, and workmen refrain from employing boys of school-going age; otherwise, they were fined 20 rupees.

6. An exemption was given for not attending the school if there was no school within a one-mile distance from home, sickness, domestic necessity, or seasonal agriculture needs.

7. Asked the local bodies to extend the same provisions to girls.

OTHER DEVELOPMENTS

Mazharul Haque, on 7 March 1911, moved a resolution on free primary education. - 'our ideal is that edu should become universal'

Gokhale passionately appealed to members for support, gave examples of different countries.

'If you want to increase the wage-earning capacity of the workmen, if you want the peasant to grow stronger and healthier and take better care of himself and understand his dealings with a money lender and understand better the benefits of sanitation and agriculture than compulsion alone had been proved effective in spreading education.'

'Free and compulsory education is the first remedy of all the remedies to be applied'

OPPOSITION TO THE BILL-1

Manekji Byramji Dadabhoy, an industrialist from Bombay, opposed 'vesting so much power with the local elected bodies as they did not entirely reflect the opinions and the wishes of the taxpayers.'

He opposed further taxation for education as well as girls' education.

The Maharaja of Burdwan condemned the idea of educating 'the agriculturists or artisans' as they would give up their 'ancestral homely occupations or would rather be inclined to get a cosy room and an electric *punkah* (fan).

OPPOSITION TO THE BILL-2

Gangadhar Rao Chitnavis, member since 1893, opposed the Bill as,

'It is not just a temporary diversion of infant labourers from the field and the workshop to the school ... it is the tendency of all intellectual education to breed in the recipient a distaste for manual labour and thus to wean him from the family pursuits that contain the germs of an evil, insidious but potent.'

Syed Shams-ul Huda-Bengal, Malik Umar Hayat Khan -Punjab,

'Ignorant people thus produced would just learn how to read and write, and any mischievous paper would lead them to acts which might be attended by serious consequences.'

'If a boy is sitting down in the school and carrying on his studies, he cannot have bodily development, and his limbs will become so weak that he will be able to follow his father's occupation and also develop a sort of false honour which will prevent him from doing such a work.'

'an agriculturist with one *bigha* of land' to argue that a 'zamindar cannot afford to send his son to school.'

OPPOSITION TO THE BILL-3

Nawab Muhammad Abdul Mazid from the United Province declared that the Bill posed,

‘Triple danger, to the government, to the Muslims and to the landholders. ... education would spread sedition against the government and would prove to be most disastrous to the welfare of the country. ... It benefits only Hindus because the Muslims would be forced to study Hindu languages. ... The Muhammadan teachers who know how to instruct a Muhammadan boy, as well as the subjects which Muhammadans read in a *maktab*, alone should teach Muslim boys.

British Bureaucrats opposed - Murder of Robert William Ash collector of Tirunelveli by Vanchinathan in 1911

SUPPORT TO THE BILL-1

The Times of India, Madras Mail, Madras Times and Indian Social Reformer

Most DPIs, British Judges at all levels, Most British and Indian ICS officers supported

Madan Mohan Malaviya, Sachidanand Sinha, Raghunath Narsinha Mudholkar, Nawab Syed Muhammad Bahadur

The Elementary Education Leagues were set up in Madras and Punjab in 1911.

Lajpat Rai announced 'the formation of the Hindu Elementary Education League which would collect a sum of rupees thirty thousand to undertake the work of free education in around Lahore.'

SUPPORT TO THE BILL-2

Lajpat Rai, 'ridiculed the fear of those who opposed the Bill on the ground that it would lead to a dearth of servants and labourers and said none had the right to deprive his brother of the light of knowledge or to hinder his progress.'

Regarding the objections against female education, he said that the *shastras* emphasised the need for girls' education to be equal to that of boys. He urged that it was the duty of Lahore Hindus to take the initiative on universal elementary education.

In Maharashtra, the Maratha Education Conference stressed that 'though the education that was given may not be perfect of its kind, it was certainly better than no education.'

In Berar, 2500 Dalits (Mahars) held a meeting to support the Bill.

SUPPORT TO THE BILL-3

Bhupendranath Basu argued that 'reading, writing and arithmetic are essential for an agriculturist. If he had little more knowledge, he would be able to hold his own against the mahajan (moneylender) and the zamindar.'

Muhammad Ali Jinnah, a Congress member at that time ridiculed the Muslim landed gentry by questioning, 'can you seriously argue that education means sedition? Do you mean that if you can get a boy who can read and write a little that he will become a political agitator? ... where would the Hon'ble Nawab Majid be but for his education? I ask, Sir, where would the Hon'ble Muhammad Shafi be but for his education?'

SUPPORT TO THE BILL-4

Vithaldas D. Thackersey – Vidya dana – highest religious merit

‘How could someone argue that giving education to the poor was dangerous?’ I cannot understand how it can be dangerous if a poor agriculturist can read and write and put his signature to Marwari bills? Well, Sir, I cannot understand how it would be dangerous if they could read the leaflets or newspapers I think it will not at all be dangerous and that therefore we ought unanimously to support the Bill proposed by Mr. Gokhale.’

Nyapathi Subba Rao Pantalu, one of the founders of *The Hindu* newspaper, derided the criticisms of Gokhale’s Bill. On the one hand, it was criticised as ‘a very cautious and colourless measure, and on the other hand, it was attacked as being dangerous.’

OTHER DEVELOPMENTS

Gokhale replied to these criticisms

‘Without compulsion, there can be no universal diffusion of education.’

‘For those who argue that the time for compulsion has not come. Will they tell us when the time for compulsion arrives? Will they tell us how and why it has arrived in Baroda and not in British territory?’

‘Mr. (Manekji Byramji) Dadabhai wants unrestricted hours for factory labour, for better dividends for capitalists.’

The Muslim fear / be forced to learn non-Muslim languages, ‘where 25 children speaking a language are available, a provision would be made to teach children in that language.’

FATE OF THE BILL

On 19 March 1912- voting the Bill was defeated by 38 to 13 votes.

Voted in favour - Madan Mohan Malaviya, Raja of Dighapatia, Bhupendranath Basu, Sachidanand Sinha, Mazharul Haque, Nawab Saiyid Muhammad, Subba Rao, Raja of Kurupam, Gopal Krishna Gokhale, Raghunath Narasinha Mudholkar, Muhammad Ali Jinnah, Ghulam Muhammad Bhurgri, Vithaldas Thackersey.

Voted against - Syad Ali Imam, Nawab Abdul Majid, Raja of Pratabgarh, Gangadhar Rao Chitnavis, Manekji Byramji Dadabhoy, Muhammad Shafi, Malik Umar Hayat Khan + Rep of Burma + Brit Officials

13 Indians supported, and 7 Indians defeated the Bill!

PROVINCIAL ELEMENTARY EDUCATION BILLS

Provincial Elementary Education Bills were introduced 1916-1922

The definition of primary education was narrow; any school that taught subjects other than reading, writing arithmetic did not come under its purview. This meant that the English medium private schools did not come under its purview.

Penalty for not sending a child to school first instance – 2 rs in Bengal, Bihar and Orissa, 10 rs in Punjab, 5 rs in Bombay and UP.

1 rupee per day on subsequent offences of not sending the boy to school.

The penalty for unlawful employment of boys during attendance

FATE OF PROVINCIAL EDUCATION BILLS

Compulsory Education Bills were passed in Provincial legislatures but not implemented.

Gandhi opposed the Compulsory Education Bills enacted in the provincial legislatures

‘all compulsion is hateful to me ... only a despotic government passes laws in the teeth of the opposition from a majority.’

Majority was not the majority of Indians, but majority of opponents in the Provincial Legislative Councils = microscopic minority of zamindars and other feudal classes

The moralistic stand against ‘compulsion’ is also not convincing

Gandhi emphatically stated, ‘if I had the powers of a despot, I would today stop the tuition of our boys and girls through a foreign medium. If I had my way, I would certainly destroy the majority of the present textbooks.’

Young India, 1 September 1921.

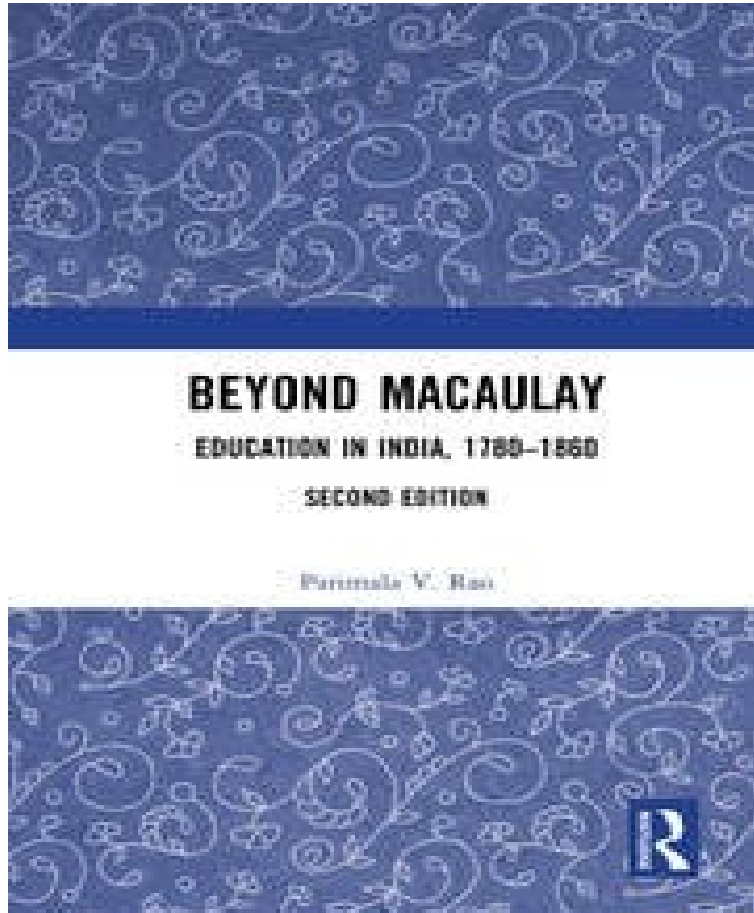

Compulsory Primary Education 1946-47
