FLAME University

BRIEF HISTORY-RECAP

University of Bombay

University of Madras

Establishment of Universities

- The Despatch recommended the **establishment of universities** in the three Presidency towns of **Calcutta, Bombay and Madras**.
- The universities were to be modeled after the London University. These were to have a senate comprising of a Chancellor, a Vice-Chancellor, and fellows who were nominated by the Government.
- The Universities would confer degrees to the successful candidates after passing the examinations, (Science, Arts or Commerce) conducted by the Senate.
- The universities were to **recognize departments** not only of English but also of **Arabic, Sanskrit** and **Persian**, as well as **law** and **civil engineering**.
- Affiliation to university was *not* limited by geographical location. Calcutta University- catered to Bengal, Assam, and Ceylon.

Affiliated colleges

- Colleges were given Grant in Aid (most widely prevalent method for expansion of education)
- Hindu College- > **Presidency College**; Madras High school-> **Presidency college at Madras**
- University College- Lahore-> **Panjab University**, Munir Central College-> **Allahabad University**
- Some Indians set up colleges themselves: **Canning College**-by Oudh talukdars, Lucknow- > Lucknow university, **Mohammadian Anglo Oriental Colleges** (1875)-> **Aligarh Muslim University**
- **Rajkot College**, Mayo College- Ajmer., Daly College, Indore
- Missionary college: **St Xavier College**- Calcutta (1860), Bombay (1869), **St Stephens College** – Delhi (1882),
- 1876: **Indian Association of Cultivation of Science (IACS)**- Mahendra Lal Sarcar

INDIAN UNIVERSITY ACT 1904

Universities were empowered to appoint their own staff including the teaching staff

Rules pertaining to affiliation of Colleges to a University were made stricter

Tight command and Control of Universities

Government was empowered to modify the rules framed by the Senate

Governor-General in Council was authorized to define the territorial jurisdiction of the Universities.

Halted expansion of Universities ; One of the most controversial legislation- widespread opposition by Indians; Curzon was regarded as a person for doom of higher education

Lord Curzon
(1859 –1925)

1904.]

THE INDIAN UNIVERSITIES ACT, 1904 (VIII OF 1904).

CONTENTS.

SECTIONS.

1. Short title and commencement.
2. Interpretation.

The University.

3. Incorporation and powers of the University.
4. Constitution and powers of the Senate.

Fellows.

5. *Ex officio* Fellows.
6. Ordinary Fellows.
7. Ordinary Fellows elected by registered Graduates.
8. Ordinary Fellows elected by Senates.
9. Election by the Faculties.
10. Nomination by the Chancellor.
11. Vacating of office.

Transitory Provisions.

12. Election and nomination of Ordinary Fellows within one year after commencement of Act and temporary continuance of existing University administration.

Honorary Fellows.

13. Honorary Fellows.

CALCUTTA UNIVERSITY COMMISSION 1917-19

Also known as **Saddler Commission** (Sir Michale E Saddler of Leeds)

13 Volumes – each 400-600 pages!!

Free the university from rigid government control imposed by Lord Curzon's IUA.

Separation of intermediate colleges from Degree Colleges..

Use of mother tongue in intermediate colleges

Honors courses as distinct from pass course, should be opened in the universities.

Inter-University board to coordinate activities of various Indian Universities

Changed character of University organization in India –creating bodies like: **board of studies, academic council**, ...

Selection committees (including outside experts) to hire faculty.

CREATION OF NEW UNIVERSITIES 1917-22

No new universities from 1887-1916.

8 new Universities in a short period

Universities in

- **Mysore**- 1916 (For Mysore and Coorg)
- **Patna** – 1917 (For Bihar and Orissa)
- **BHU** (Benaras)- 1917 , Pt. Madan Mohan Malaviya
- **Aligarh** – 1920
(Mohomedian Anglo-Oriental College, - Sir Syed Ahmed Khan)
- **Dacca**- 1920
- **Lucknow**- 1920
- **Osmania**- 1918 (From Hyderabad Nizam)- Urdu medium University
- **Delhi** -1922

SARGENT PLAN

Sir John Sargent, the Educational Adviser to the Government of India was asked to prepare a comprehensive report on education: '**Plan for post-war educational reconstruction in India**'.

It was the **first attempt to develop a National System for Education for post independent India**. Full fledged educational plan for the future educational reconstruction in India

- Presents a comprehensive picture of education in our country at that period of time

The **duration of degree** course should be of **3 years**.

Adequate **financial assistance** must be provided for poor students

Emphasis should be given on establishing a **high standard in post-graduate studies** and in pure applied research.

Sir John Philip Sargent

© National Portrait Gallery, London

IMPLEMENTATION OF SARGENT PLAN RECOMMENDATION

In 1945 an education department was established at the centre to increase administrative efficiency.

40 crores of rupees were given to the provincial Governments for implementing certain aspects of the scheme in their areas.

The Provincial Governments were advised to make five year plans for education.

Decided that the **scheme should be implemented within 16 years instead of 40 year.**

According to the recommendations of the committee **University Grants Committee was constituted in 1945** which later on became **University Grants Commission in 1956.**

Efforts were made for adult education and also for improving the economic condition of teachers.

The committee of polytechnic school and the **All India Technical Education Committee** were established in Delhi.

POST INDEPENDENT INDIA

STATE OF HIGHER EDUCATION AT INDIA'S INDEPENDENCE

Population in 1947 : **around 406 million** (India + Pakistan combined)

Higher Education:

- **15 Universities**, 16,000 students , expenditure – 2.03 crores
- **300 Arts and Science Colleges**, Pupils: 96,000 , expenditure- 3.53 crores
- **16 engineering and technical colleges**, 72,000 students; expenditure – 2.73 crores

TOTAL FERTILITY RATE

The TFR is an indicator of the number of children a woman is likely to have in her lifetime, given the current fertility rates.

India's Total Fertility Rate (TFR) is 2.2

Median age of 24, more than half of India's population is below 25 years

India is entering the final stage of demographic transition. Replacement level TFR of 2.1 is essential for population stabilisation

Age Group

BIHAR AND TAMILNADU: AGE GROUPS

- **Bihar:** By 2021, the higher education age group of 18-23 years –will increase by 57% from 11.4 million to 17.9 million.
- **Tamil Nadu,** its population in the higher education group will **decline from 7.5 million in 2011 to 5.9 million in 2031.**

18-23 YEARS: EDUCATION AND LABOR FORCE

- For a long time in India, the 18-23 age group meant entry into the labour force.
- **As recently as 2001, only one out of 10 in this age group received any college education.**
- India's Gross Enrolment Rate (GER) in higher education more than doubled from mere 11% in 2001 to 25% in 20152.
- There are currently around 799 universities, 39,071 colleges, and 11,923 stand-alone institutions (not affiliated with universities) (AISHE, 2015-16).
- Among the large states, **Delhi has the highest GER of 45.4%, and Bihar has the lowest GER of 14.3%**
