CRISIS OF LEARNING

#IndiaInData

NPE- AND MINIMUM LEARNING LEVEL

NPE-1986, POA 1992 & MINIMUM LEARNING LEVEL

NPE-1986; POA-1992: **lay down Minimum Levels of Learning (MLL)** - irrespective of caste, creed, location or sex, all children must be given access to education of a comparable standard.

Quality of elementary education is an attempt to **combine quality with equity**

Strategy:

- Preliminary assessment of the existing levels of learning achievements.
- Modification of the MLLs to suit local situations, if needed.
- Initial and recurrent orientation of teachers to competency-based teaching.
- Preparation of teacher training handbooks for MLL-based teaching.
- Introduction of **continuous and comprehensive evaluation** of students and using evaluation results for remedial action.

LEARNING OUTCOMES

at

ELEMENTARY STAGE

MHRD, 2016/17

Class III (English)

Suggested Pedagogical Processes	Learning Outcomes
The learner may be provided opportunities in pairs/groups/ individually and encouraged to: ➤ sing songs/ recite poems in English with intonation. ➤ participate in role-play, enactment of skits. ➤ reads aloud short texts/ scripts on the walls, with pronunciation and pause ➤ listen to and communicate oral / telephonic messages ➤ collect books for independent reading in English and other languages/Braille with a variety of themes (adventure, stories,	The learner: • recites poems individually/ in groups with correct pronunciation and intonation. • performs in events such as role-play/ skit in English with appropriate expressions. • reads aloud with appropriate pronunciation and pause • reads small texts in English with comprehension i.e., identifies main idea, details and sequence and draws conclusions in English.

Based on NCF-2005

Class III (Mathematics)

Suggested Pedagogical Processes	Learning Outcomes
The learner may be provided opportunities in pairs/groups/ individually and encouraged to: ➤ count large number of objects from their surroundings by making groups of 100,10 and ones. ➤ write a number (up to 999) and the other group reads it. ➤ apply place values for writing greatest/ smallest numbers with three digits. (Digits may or may not repeat.) ➤ arrange concrete objects and draw different multiplication facts/ combinations of a given number, For example 6 mangoes can be arranged as ➤ develop multiplication facts of 2, 3, 4, 5 and 10 using different ways e.g. Skip counting  and by using repeated addition	The learner: • works with three digit numbers - reads and writes numbers up to 999 using place value. - compares numbers up to 999 for their value based on their place value. - solves simple daily life problems using addition and subtraction of three digit numbers with and without regrouping, sums not exceeding 999 - constructs and uses the multiplication facts (tables) of 2, 3, 4, 5 and 10 in daily life situations. - analyses and applies an appropriate number operation in the situation/ context. - explains the meaning of division facts by equal grouping/sharing and finds it by repeated subtraction. For example $12 \div 3$ as number of groups of 3 to make 12 and finds it as 4 by repeatedly subtracting 3 from 12 - adds and subtracts small amounts of money with or without regrouping. - makes rate charts and simple bills • acquires understanding about 2D shapes - identifies and makes 2D-shapes by paper folding paper cutting on the

NCF-2023: APPROACH TO LEARNING STANDARDS, CONTENT, PEDAGOGY, ASSESSMENT ACROSS STAGES

Table A-5.1-1

	A	B	C	D	E
	Competency: Converses fluently and can hold a meaningful conversation				
	Ages 3 - 8				
1	Listens attentively and speaks in short conversations with familiar people around	Initiates conversations in daily life with peers and teachers in a variety of school settings	Engages in conversations based on events, stories, or their needs and asks questions	Engages in conversations, waits for their turn to speak, and allows others to speak	Maintains the thread of the conversation across multiple exchanges
2	Expresses their needs and feelings through short meaningful sentences	Narrates daily experiences in simple sentences and asks simple questions, using what/ when/ how/ whom, etc.	Narrates daily experiences in elaborate descriptions and asks why questions too	Engages with non-fictional content read aloud or discussed in class, is able to link knowledge from their own experiences, and talks about it	Engages in discussion about a topic and raises and responds to questions

अनुच्छेद	कहानी
गरमी का मौसम है । सबको गरमी लग रही है । लोग नींबू का शरबत पी रहे हैं । और छाता खोलकर घूम रहे हैं ।	एक बड़े तालाब के किनारे बहुत से कछुए रहते थे । लड़के तालाब के किनारे जाते और कछुओं को देखते । कभी कछुए चलते तो कभी हाथ-पैर अंदर कर लेते, जैसे कोई पत्थर हों । लड़के यह देखकर खूब जोर से हँसते व ताली बजाते । घर जाकर सबको कछुए की कहानी सुनाते ।
मैं पापा के साथ बाजार गया । बाजा और जूता लाया । बाजा बजाकर गीत गाऊँगा । जूता पहनकर घूमने जाऊँगा ।

How much have reading levels changed over time?

Std V reading levels over time : All India (rural)

“Low” and “stuck”

- For children enrolled in government schools in Std V, apart from a decline in reading levels between 2010 and 2012, reading levels over time are “low” and “stuck”.
- Reading levels in **Std V in private schools are also not high.**
- The **gap in reading levels between children enrolled in government schools and private schools seems to be growing over time.**

ASER SURVEY- OVERVIEW

ASER BASICS (2014)

- ASER is an annual household survey to assess children's schooling status and basic learning levels in reading and arithmetic.
- One government school in each sampled village is also visited.
- The survey is facilitated by Pratham but carried out by a local organization or institution in each district.
- This year 243 DIETs have partnered with ASER. The rest of the partners are colleges and universities as well as NGOs.
- ASER 2014 is the 10th report.

Some basic facts about ASER 2014

- 577 rural districts
- 30 randomly selected villages in each district
- 20 randomly selected households per village
- All children age 3 to 16 in the household

-
- 500 + institutions/organizations
 - 1000 + master trainers
 - 16497 villages visited
 - 25,000 volunteers participated
 - 341,070 households reached
 - 569,229 children surveyed

SURVEY PROCESS- VILLAGE MAP

गाँव का नक्शा:

ASER 2014
HOUSEHOLD SURVEY

Village map

नक्शा बनाने के निर्देश

- सर्वेक्षण किए गए रहे गाँव के विभिन्न हिस्से/मुहल्लों को दर्शाएं।
- प्राथमिक विद्यालय/मुहल्लों को नक्शे पर चिह्न दें।
- मुख्य स्थान जैसे कि - विद्यालय, स्वास्थ्य केंद्र, जंगल/बाड़ी, मंदिर, मस्जिद, बाड़ी, बाकस, बाग, स्टेशन, पंचायत भवन, दुकान आदि को दर्शाएं।
- गाँव का समय करने के दौरान नक्शे पर ही गई सभी जानकारी को गाँव के लोगों से पुष्टि करें।

गाँव के नक्शे पर मुख्य सड़कें/गलियाँ/रास्ते को स्पष्ट रूप से चिह्नित करें

ENROLLEMNT IN PRIVATE SCHOOLS

Statewise maps showing % of children (age 6-14) who are enrolled in private school

Can we fix the persisting crisis of learning?

Vimala Ramachandran¹

1. **System expects teachers to teach to the curriculum, finish the syllabus within a time frame – regardless of whether the children in the class are learning or not;**
 - Two other issues contribute to this – prevalence of multi-grade classrooms across the country and frequent absence of teachers and students.
2. **There is no school level monitoring of teaching-learning processes and actual teaching time.** Almost all the monitoring is confined to inputs – enrolment, mid-day meals, distribution of incentives and so on.
3. **There is a huge social distance between teachers and students** in government schools.
 - Middle classes and the not-so-poor have walked out of government schools and prefer to send their children to private schools.
 - Those left behind are poor, migrant wage labourers; the most marginalised social groups and girls from the not-so-poor families.
4. Educators and pedagogy experts blame rote learning – the **practice of memorising information.**
5. **Subject knowledge is poor among our teachers.**
6. **No-detention policy that ensures children are promoted from one grade to the next** is the reason why the school system is not made accountable for the learning of children.
7. The number of actual teaching days is low and that **teachers have many non-teaching duties.**

NATIONAL ACHIEVEMENT SURVEY

The National Achievement Survey (NAS) was conducted throughout the country on November 13, 2017 **for Classes 3, 5 and 8 in government and government aided schools.**

Classes III and V – **Language, Mathematics, Environmental Sciences;**

Class VIII in **Mathematics, Language, Environmental Sciences, Sciences and Social Sciences.**

The attainment of **the competency based learning outcomes of 2.2 million students from 1,10,000 schools across 700 districts in all 36 States/UTs were assessed.**
